

Chips JU

Competence Centres overview

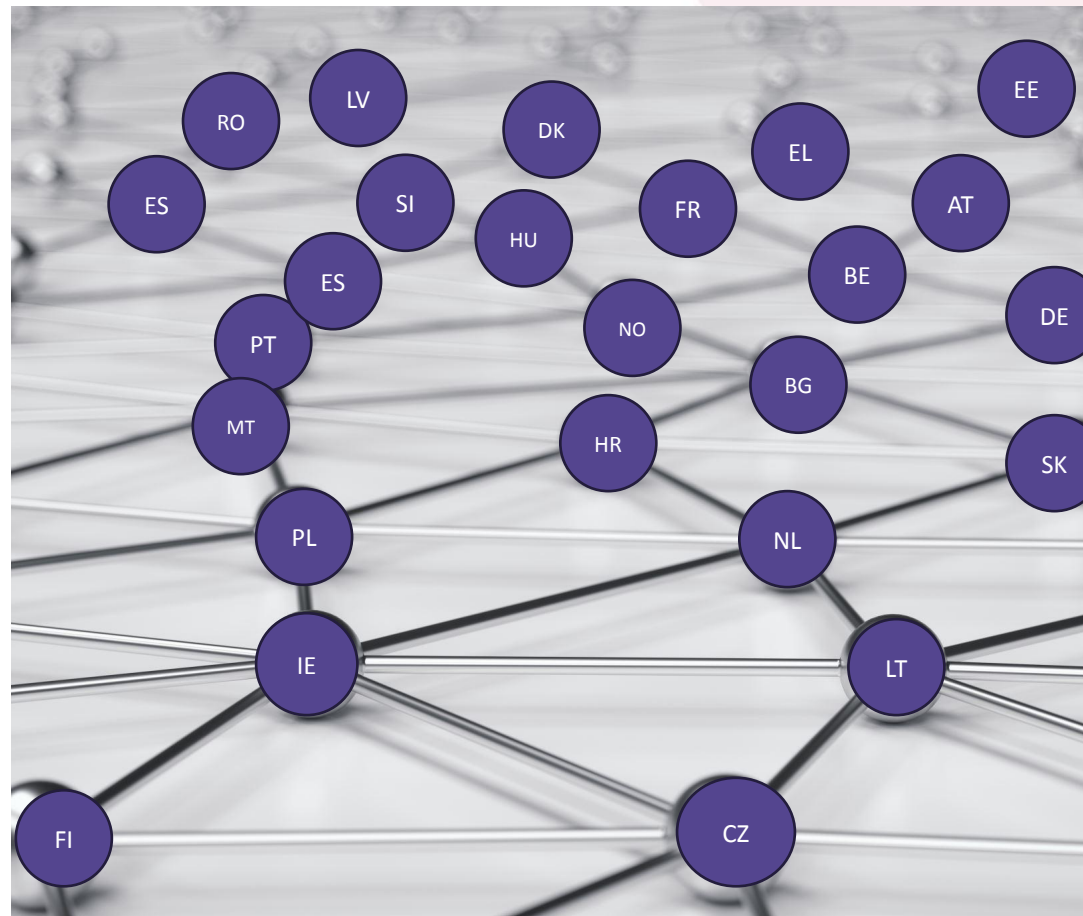

Berta Ferrer Llosa

Chips JU Programme Officer

CCC-1 Competence Centres call

- ❑ CCC-1 call closed on 02/10/2024
- ❑ Max. JU expenditure: 116MEur
- ❑ Grant Agreement Negotiations
 - ✓ **27 Competence Centres from 25 countries**
(BE and ES: two CCs)
 - ✓ **Start date: as from 1st January 2025**

Co-investment
with Member
States

Chips Competence Centres

Provide services in certain technology or domain

Facilitate effective use of capacities and facilities, including access to **Chips Design Platform and Pilot Lines**

Support interested stakeholders in developing semiconductor solutions (**technology transfer**)

Address skills shortage by offering (access to) **training on semiconductors**, including workforce upskilling and reskilling

Promote **Chips Fund** and facilitate access to venture capital

Match user needs with available expertise in network of competence centres and act as **access point to the network**

CCC-2 Network of Competence Centres

- CCC-2 call closed on 2nd October 2024
- Support to the European Network of Chips Competence Centres – Coordination and Support Action (CSA)
- Max. JU expenditure: 4MEur
- One project, **aCCcess**, under Grant Agreement Preparation
- Start date: 01/03/2025

- Effective coordination and **exchange of information** among the network of Chips CCs
- **Maximise visibility** and outreach of Chips CCs, in particular to SMEs and industry
- **Promote the services** of the Chips CCs, specifically addressing the needs of SMEs
- Coordinate **access to training activities** on semiconductor technologies across Chips CCs and within the European semiconductor ecosystem
- Educate and assist Chips CCs in **technology transfer practices**

CCC-3 Competence Centres call

- ☐ CCC-3 call open ☐ closing date: 04/03/2025
- ☐ Similar to CCC-1
- ☐ Eligible countries:
 - ☐ Cyprus
 - ☐ Iceland
 - ☐ Italy
 - ☐ Luxemburg

Completing the
network of CCs!

Thank you for your attention!
