

# ECS BROKERAGE EVENT 2025

18-19 February

Hotel Le Plaza, Brussels

Aeneas

EPoSS  
European Federation of  
Trade System Integrators

**INSIDE**  
Industry Association

# Design Platform Goal

Develop a cloud-based design infrastructure where design tools, kits and flows, IP libraries and support services all the way to production are easily accessible

# DP - High level overview

## Central services

- Coordination of the Design Platform
- Link to Chips for Europe Initiative Infrastructure
- Negotiation of framework agreements with vendors
- Definition of common look and feel across Design Enablement Teams (DETs)
- Quality assurance

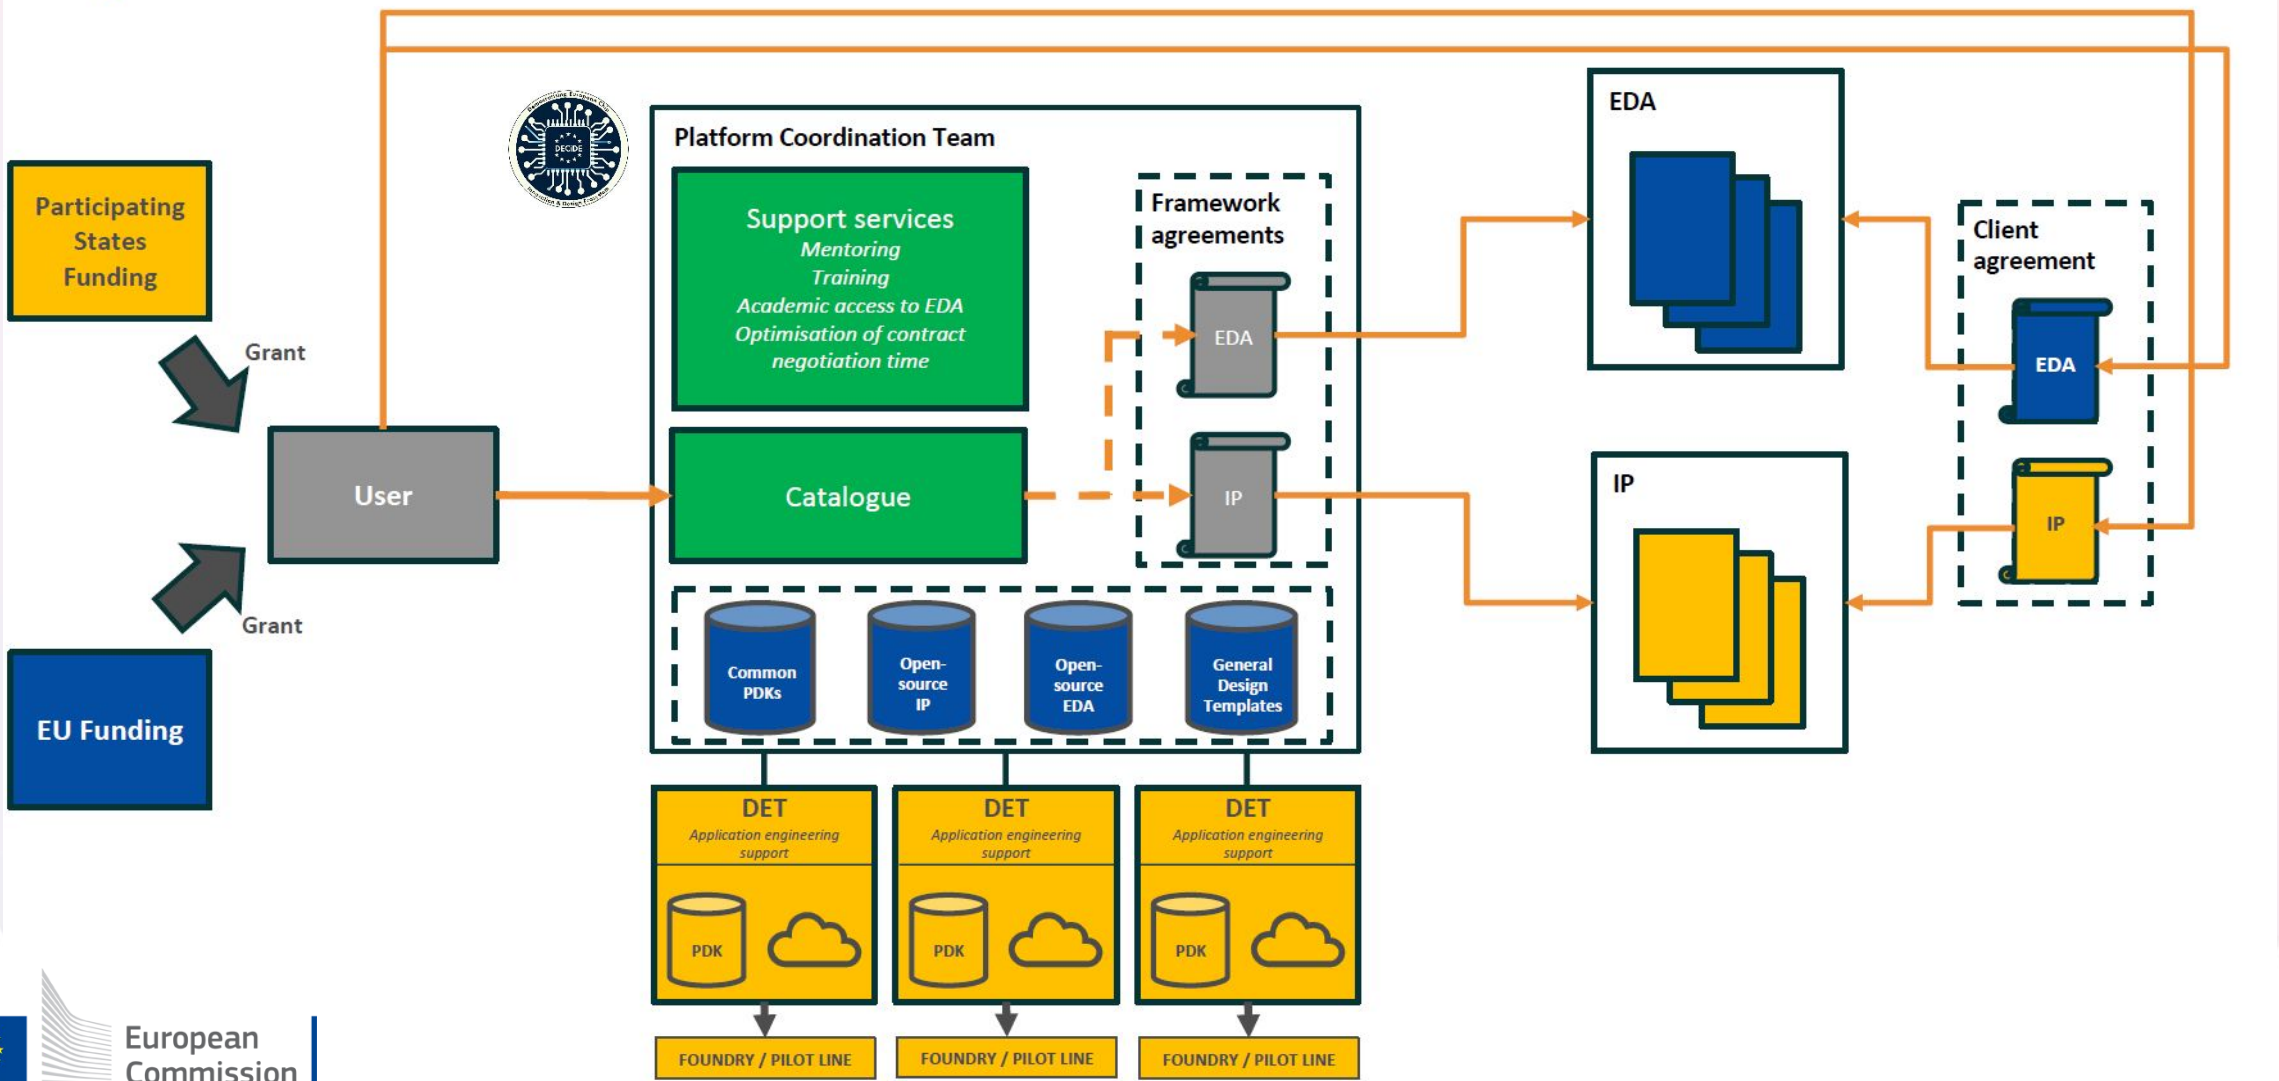

## Design Enablement Teams

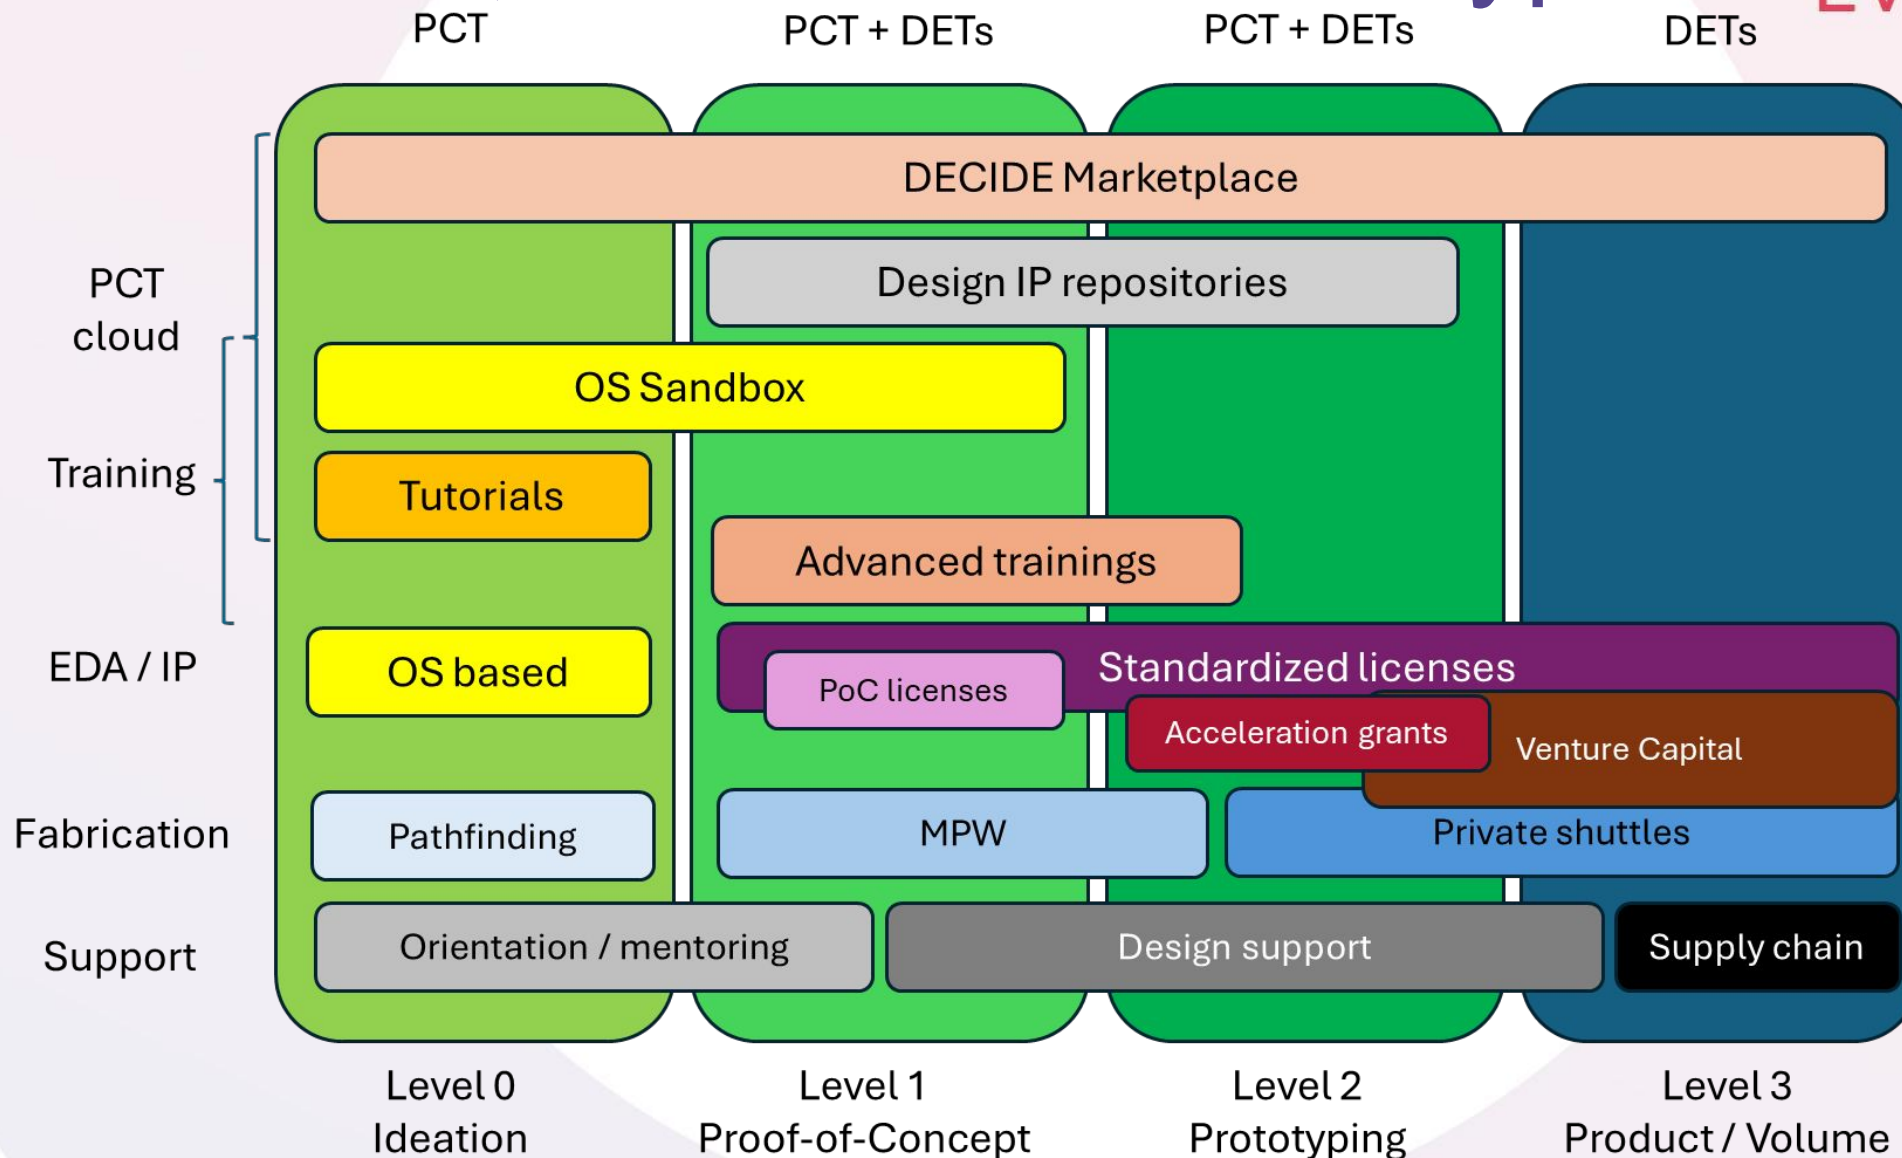

## Distributed services

- Application engineering support to users
- Hosting of cloud instance
- Supporting users in setting up their design environment and design flows
- Interface with foundries for prototyping
- Supply chain management for prototypes and volume products

# DP - Architecture

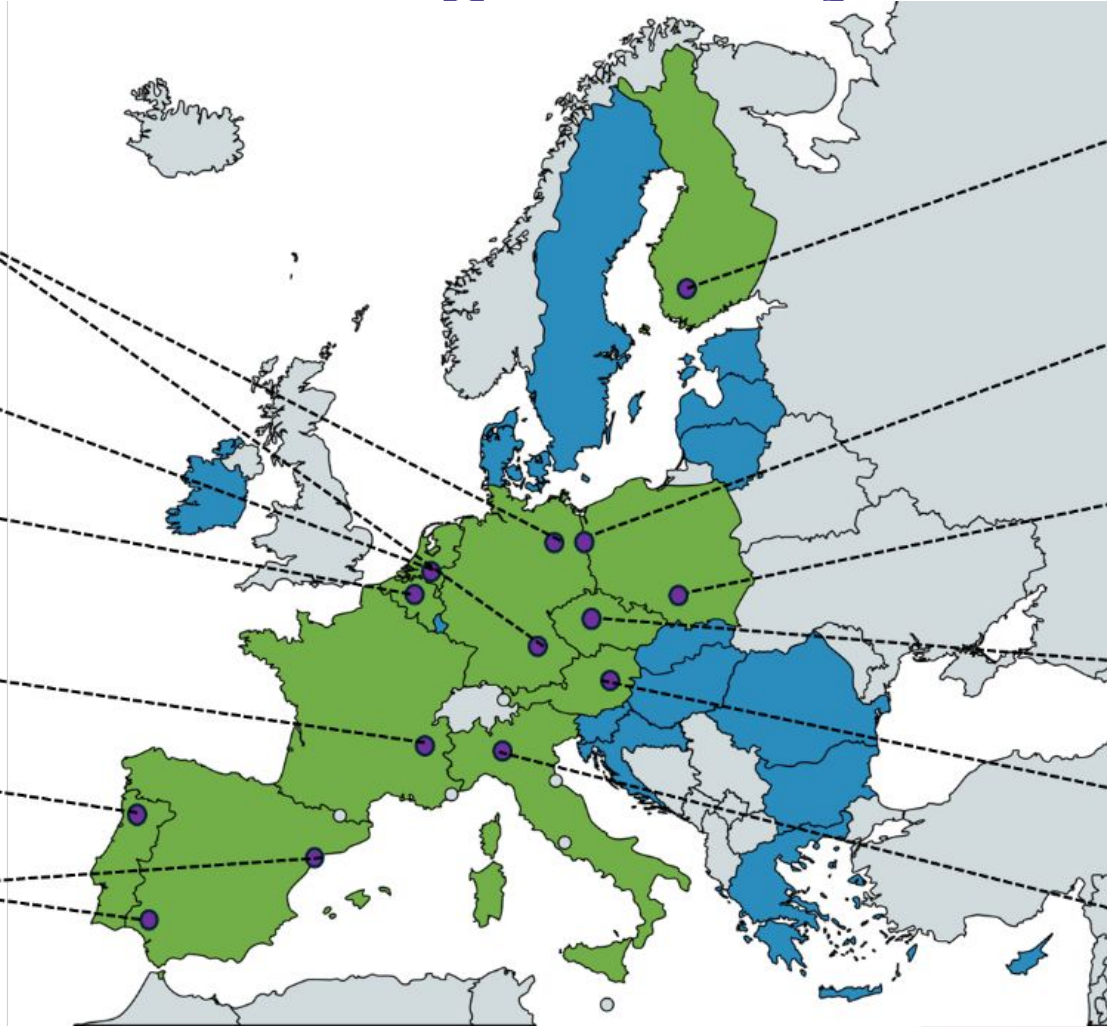

# DP – PCT, DETs and User Types

# DECIDE: Democratizing European Chip Innovation & Design Ecosystem

# DP - Needs for startups and SMEs

Lower the risk, lower time-to-market and maximize their success rate

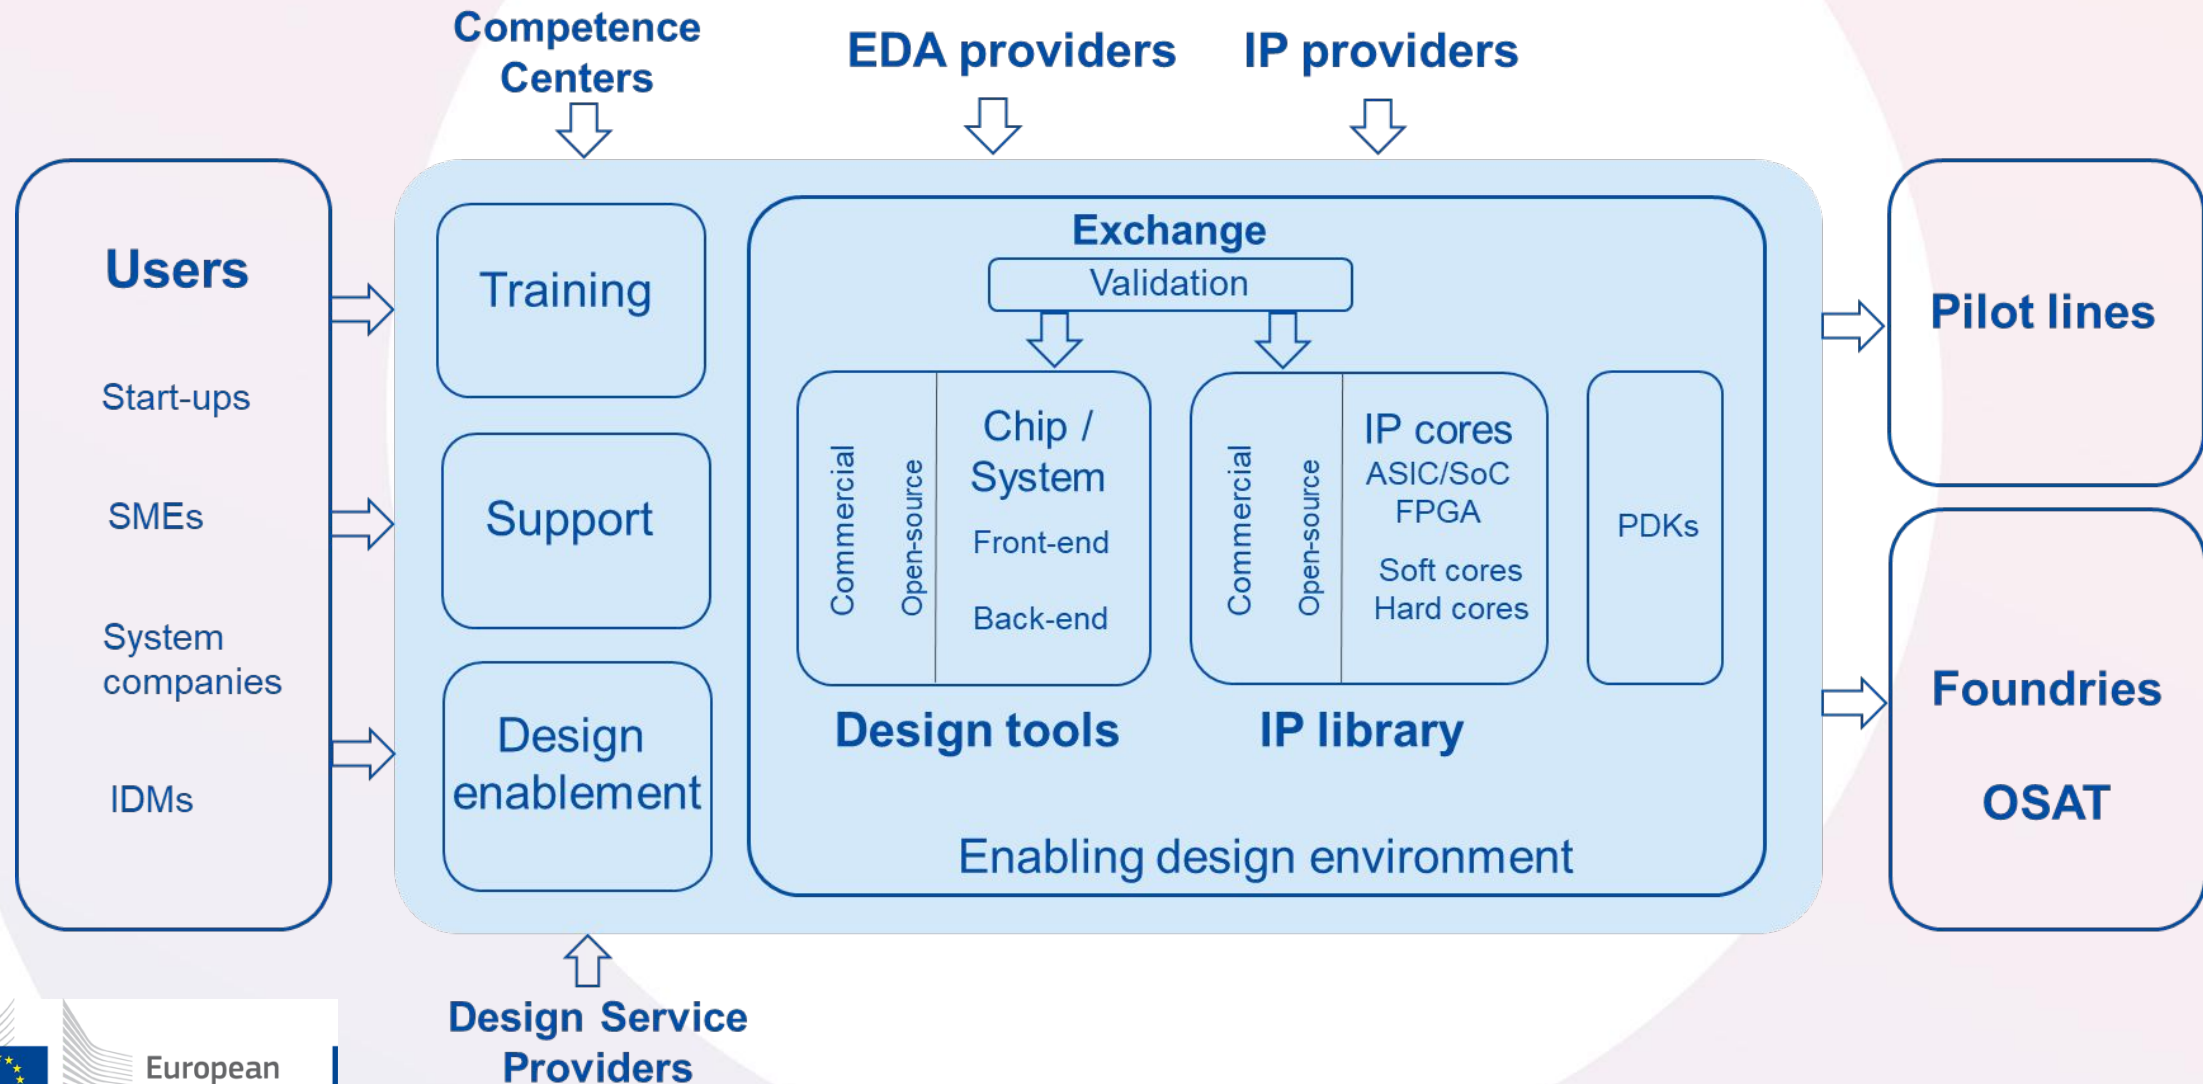

- Easy access to design tools, IP and technologies ( “One-Stop-Shop”)
- Easy installation and maintenance of design flows (incl. multivendor flows)
- Availability of people with the right skills
- Easy access to capital
