Sorama at a glance

ECS BROKERAGE EVENT

- HQ at Eindhoven, NL + US, CH
- Number of employees:
 - ~90, 50-60% on R&D activities.
- Acoustic camera maker:
 - localizing, quantifying, mapping, classifying anomalous sound sources.
 - Handheld, fixed unit, integration with robotics.
- Experienced in Chips-JU/Horizon/Eureka projects
- Markets
 - Sustainable Industries:
 - asset predictive maintenance (bearing, pump, motor)
 - gas leak inspection
 - partial discharge inspection
 - Acoustic anomaly

Sorama L642

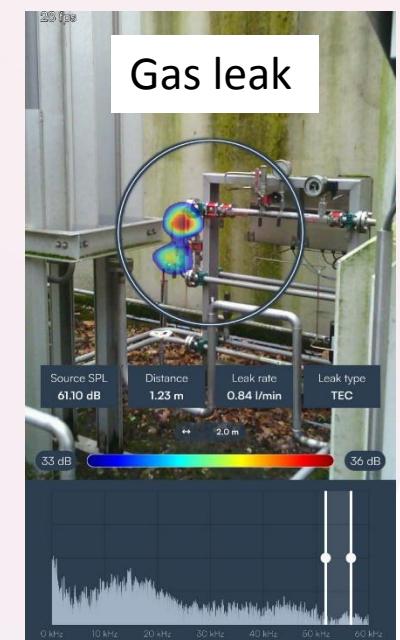

Faulty pump

Integrate with robot

Sorama CAM iV64Ex

Gas leak

Sorama at a glance

- Markets
 - Livable Cities:
 - smart stadium (fan engagement)
 - smart cities (airports, harbours applications)
 - safety & security, dual-use
 - Sustainable Design:
 - building envelope, energy leaks, and comfort (residential, office etc.),
 - acoustic design (automotive, OEM, maritime)

Collaboration Expectations

Collaborative project of
interest to you

*Chips JU, Horizon Europe, Eureka Clusters
(ITEA, XECS, Eurostars)*

Scope

*New applications of acoustic AI/sensing, new
market access*

Project idea

Let's explore this together!

Project impact

-

Project consortium

*we are searching for consortiums to further
develop acoustic (edge) AI/sensing
Also for SMEs for Eurostars.*

*Other information (e.g.
project budget, duration)*

-
